Armenian - Native (C2)

Russian - Excellent (B2 - C1)

English - intermediate (B1 - B2)

WORK EXPERIENCE

2024- Present

TechX Global | Forbes | Mashtots Ave 8/9, Yerevan

Full-stack Developer

My role includes integrating industry-leading coding practices, collaborating efficiently with cross-functional teams, and independently driving forward product design requirements within tight deadlines. I thrive on learning and implementing new technologies to develop innovative solutions that enhance our products. My work at Forbes encompasses the development, enhancement, and maintenance of sophisticated commercial software applications, ensuring they are both robust and user-friendly. With a strong focus on quality and performance, I am committed to delivering exceptional results that align with the strategic goals of the project.

2022- 2024

Solcity | 30/1 Sevan St., Yerevan

Software Developer

Write and maintain codes. Analyze and implement best coding practices into the project code. Work both in a team environment and independently to consistently meet product design requirements within scheduled completion deadlines. Demonstrate strength in learning new technologies and applying them to required solutions. Participate in the development, enhancement, and maintenance of several commercial software applications.

2021- 2022

Web Foundation | 73/1 Nairi Zaryan St., Yerevan

Full-stack Developer

Created user friendly software that meets and exceeds the company's requirements. Created and maintained all server side network components. Ensured optimal central database performance and responsiveness to front end requests. Collaborated with front end developers on element integration.

2020 - 2021

Freelance

Frontend Developer

Identified areas for improvement in existing programs and then developed those improvements. Created new software programs and systems by designing algorithms and flowcharts. Created front end and back end code primarily with React and NodeJS.
